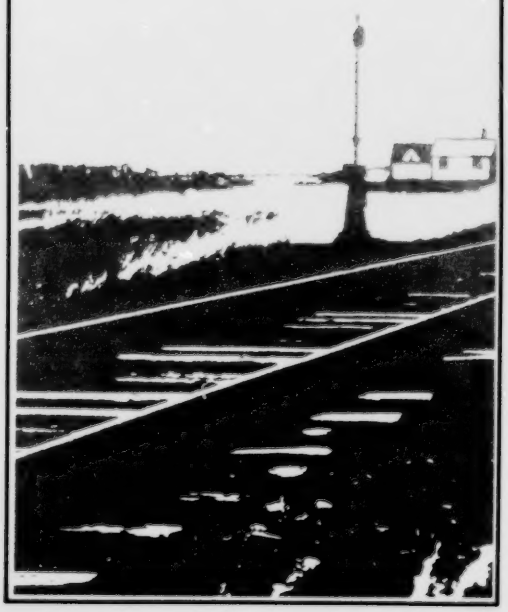
grain deliveries at prairie points

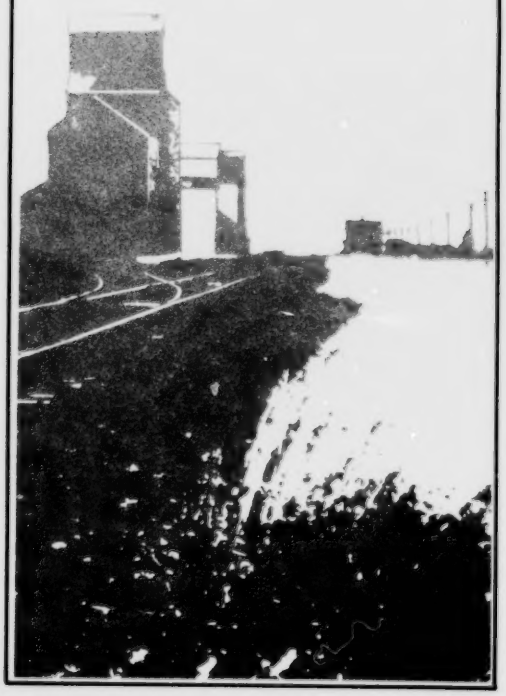
CROP YEAR 1985-86



COMMISSION CANADIENNE DES GRAINS
Division de l'économie et de la statistique

livraisons aux élévateurs primaires de l'ouest

CAMPAGNE AGRICOLE 1985-86



FOREWORD

The tables which follow in this booklet show the total receipts at licensed primary elevators located at prairie shipping points, of the principal grains — wheat, oats, barley, rye, flaxseed and rapeseed, for the crop year 1985-86, firstly by province and secondly by train runs within grain loading blocks. Also shown are average annual deliveries at each point over the 10-year period 1975-76 to 1984-85.

The total primary elevator capacity (expressed in wheat equivalent tonnes), number of companies, and number of elevators at each individual point licensed August 1, 1986 are shown in the initial columns.

In certain instances the reader will note that the elevator capacity figure is not quoted; this would indicate that the licence had not been renewed for the 1986-87 season. In other instances there is no figure shown against the 1985-86 deliveries but the 10-year average handling is shown. This indicates that the elevator did not receive any grain during the past crop year.

Primary elevator points falling into train run '00' are, in most cases, no longer licensed facilities; hence do not have a train run assigned to them. Those points which are not 'on track' are also included in the '00' train run.

The 10-year average figure in all instances reflects the average deliveries of each delivery point for the number of years in which each received grain within the preceding ten crop years.

Producer deliveries for certain "single company" shipping points are not detailed by individual grains at the direction of the licensee.

Effective with the 1984-85 crop year, the Canadian Grain Commission allowed operators of primary elevators to licence two or more adjacent facilities, which were under the control of a single manager, as a single primary elevator. This is evident in the reduced 'number of elevators' at individual delivery points.

NOTE: ALL DELIVERIES AND CAPACITY DATA ARE EXPRESSED IN THOUSAND OF TONNES

For further information, contact the Economics and Statistics Division of the Canadian Grain Commission at (204) 949-7905.

December - 1986

AVANT-PROPOS

Les tableaux que renferme ce livret indiquent, d'abord par province ensuite par parcours ferroviaires à l'intérieure des zones d'expédition, le total des arrivages des grains principaux, soit le blé, l'avoine, l'orge, le seigle, le lin et le colza, pour la campagne 1985-86, aux élévateurs primaires agréés qui sont situés aux points de collecte des Prairies. Ces tableaux comportent également la moyenne des livraisons annuelles à chaque point de collecte pendant la décennie de 1975-76 à 1984-85.

La capacité totale de l'élévateur primaire (exprimée en tonne métrique équivalence de blé), le nombre de compagnies et le nombre d'élévateurs à chaque point de collecte, agréés au 1er août 1986, sont indiqués dans les colonnes initiales.

Dans certains cas le lecteur constatera que la capacité de l'élévateur n'est pas signalée; c'est le cas de l'élévateur dont le permis n'a pas été renouvelé pour la saison 1986-87. Dans d'autres cas, aucun montant n'est indiqué en regard des livraisons 1985-86, seule la moyenne de 10 ans est indiquée. C'est l'example d'un élévateur où aucune livraison n'a été faite durant la dernière campagne.

Les silos de collecte situés le long d'un parcours ferroviaire '00' ne sont plus, dans la plupart des cas, des installations homologuées; donc, il n'y a plus de train qui leur soit assigné. Les silos qui ne sont pas situés le long des voies sont également inclus dans les parcours '00'.

La moyenne de 10 ans traduit dans tous les cas la moyenne des livraisons à chaque point de collecte pour le nombre d'années au cours desquelles chacun des élévateurs a reçu du grain dans les 10 campagnes précédentes.

Dans le cas de certains points de collecte à "compagnie unique", les livraisons des céréaliculteurs ne sont pas détaillées par grain selon les instructions de la compagnie exploitant l'élévateur.

Dès le début de la campagne agricole 1984-85, la Commission canadienne des grains accepta d'emettre un seul permis aux exploitants de deux silo au plus lorsque ces silos sont gérés par une seule personne et qu'ils sont attenants. Cela est évident par la réduction dans le nombre de silos aux points de livraison.

NOTA: TOUTES LES DONNEES CONCERNANT LES LIVRAISONS ET LA CAPACITE SONT EXPRIMEES EN MILLIERS DE TONNES METRIQUES

Pour de plus amples renseignements, vous êtes tenu de signaler la Division de l'économie et de la statistique de la Commission canadienne des grains à (204) 949-7905.
